ABOUT ME

As a dedicated Frontend Developer, I bring a wealth of experience in crafting, optimizing, and sustaining high-performance web applications. My proficiency lies in creating scalable, reusable components and expertly integrating RESTful APIs. With a deep understanding of Angular, TypeScript, and cutting-edge frontend technologies, I am well-equipped to tackle complex challenges. My exceptional problem-solving abilities, coupled with a collaborative spirit, fuel my passion for elevating user experiences with innovative and efficient solutions. I am eager to apply my skills within a progressive organization to produce outstanding software solutions.

WORK EXPERIENCE

Junior Frontend Developer

Oracle | Hyderabad | May 2022 - Feb 2024

- Delivered expert front-end development, crafting aesthetically pleasing designs that adhere to brand guidelines.
- Engineered bespoke web applications, providing customized solutions to meet client requirements.
- Seamlessly integrated third-party APIs, augmenting website capabilities and offering enriched user services.
- Actively solicited user feedback to drive informed enhancements in UI/UX design.
- Designed and implemented optimized landing pages using HTML and CSS, ensuring seamless integration and cross-browser compatibility.
- Developed RESTful web services for efficient management of dynamic data.

Jr Angular Developer

Tata Consultancy Services | Hyderabad | Aug 2019 - May 2022

- Leveraged Git for version control to enhance team collaboration and monitor project milestones effectively.
- Crafted reusable Angular UI components, ensuring code uniformity and expediting development processes.

EDUCATION

BTech: Computer Science

Vasireddy Venkatadri Institute of Technology - Guntur | Guntur | Apr 2019

- Served as Team Lead for the Student Activity Council, enhancing leadership abilities.
- Solidified expertise in software development, proficient in SQL, Python, and C.
- Completed diverse projects, sharpening MySQL, Git, and Visual Studio skills, targeting a technical support and software development career path.

CERTIFICATES

Certified Power BI Essential Training

Angular Essential Training

https://www.linkedin.com/learning/certificates/5ea82ab4ca38c445a4a72242f3f841d51cd74921cd0688895f68b151e52ef1b6?trk=share_certificate

PROJECTS

Full-Stack eCommerce Application

- Developed a comprehensive eCommerce platform using Angular for the frontend and Spring Boot for backend services.
- Built REST APIs and integrated a MySQL database to manage data effectively.
- Implemented a fully functional shopping cart with Angular and Spring Boot integration.
- Enabled secure credit card payment processing via Stripe API.
- Utilized modern development tools such as IntelliJ, VS Code and npm throughout the project.
- Ensured responsiveness, scalability, and optimized performance across the application.

Personal Portfolio Website

- Created a responsive portfolio showcasing skills and projects.
- Integrated Google Analytics for user flow analysis
- and EmailJS for contact form services.

Astrology Insights App (Personal Project)

- Developed an intuitive Angular-based application providing personalized insights based on users' moon signs and detailed astrological chart analyses.
- Enhanced user interface and experience with Angular Material components, ensuring responsiveness and visual appeal.
- Designed the application to offer users seamless navigation and easy access to customized astrology content.
